

**Perry Park Metropolitan District  
(PPMD)  
2017 Wildfire Mitigation Grant Program  
Application**

Date: \_\_\_\_\_

Name: \_\_\_\_\_

Address: \_\_\_\_\_

Phone Number: \_\_\_\_\_ Cell Phone Number: \_\_\_\_\_

Email Address: \_\_\_\_\_

Contact Person for the mitigation project: \_\_\_\_\_

Pick one or more of the following:

- My mitigation project will expand my defensible space and improve firefighter safety. These should include removing ladder fuels, and increasing tree crown separation to reduce crown fire potential. Other considerations:
- ✓ My property is adjacent to a PPMD open space parcel and this wildfire mitigation project will enhance the effectiveness of mitigation that has been accomplished on the open space parcel.
  - ✓ My wildfire mitigation project is part of a larger scale effort with one or more neighbors to provide a greater level of mitigation effectiveness across contiguous properties against a wildfire.
  - ✓ My project is for the removal of dead or dying trees within my defensible space, or that pose a threat to public safety.

Describe briefly:

- My mitigation project is on my vacant lot that contains dead trees, heavy brush, dense tree clumps, ladder fuels or other hazardous wildfire conditions.

Describe briefly, including legal description (Lot/Block/Filing):

- My mitigation project is for Firewise landscaping that will help reduce risk of ember ignitions (#1 cause of home losses!). **\*\*NEW Category\*\* Requires pre-approval by the Project Forester or LFPD Fire Marshal.** It meets one or more of the following criteria:
- ✓ Removal of combustible materials (mulches, landscape timbers, fences, etc.) typically within five feet of the structure.
  - ✓ Replacement with non-combustible materials that also meet the following criteria:

- Provide 5 inches of vertical clearance from the top of the non-combustible material to the lower edge of siding or structure.
- Provide positive drainage away from the structure.
- Addresses areas where embers may collect due to wind eddies. (Note- Think of where the leaves or snow accumulate around your house after a windy day. These same areas will accumulate embers during a wind driven wildfire.)

Describe briefly:

I agree to the following:

- ✓ I have read and understand recommendations in the Colorado State Forest Service document “Protecting Your Home from Wildfire” Series - FIRE 2012-1.
- ✓ I have read and understand the PPMD Wildfire Mitigation Grant Program Guidelines (viewable at [www.perrypark.org](http://www.perrypark.org) ).
- ✓ PPMD or its designee may access my property for the purpose of obtaining additional information related to this application.
- ✓ The proposed mitigation project will require a field inspection by PPMD or its designee, prior to final award. I understand that if I am unable to comply with the recommendations presented, the grant may be awarded to someone else.
- ✓ If a successful applicant, I agree to use of my name and any photos taken of the project.

Applicant: \_\_\_\_\_ Date: \_\_\_\_\_

Applications may be mailed to PPMD and postmarked by May 1, 2017. Mail it to:

Perry Park Metro District  
 P.O Box 183  
 Larkspur, Co 80118

**OR**

emailed to: [submit@perrypark.org](mailto:submit@perrypark.org)

Grants will be awarded by May 11, 2017. Grant awards will be limited to fifty applicants. If more than 50 applications are received, a scoring system will be used to award grants. All applications will be reviewed by the PPMD Firewise Committee which will make its recommendations to the Board of Directors at its May 11, 2017 meeting. Date, time and location of this meeting can be found at [www.perrypark.org](http://www.perrypark.org) .
