

Perry Park Metropolitan District (PPMD) Wildfire Mitigation Grant Program

April 12, 2018

The Wildfire Mitigation Grant Program is:

- 1) For Perry Park Metropolitan District (PPMD) residents and property owners.
- 2) Made possible through funding provided by the PPMD.
- 3) To encourage PPMD residents to better prepare their property and their community for a wildfire event. It is not a matter of “If”, but “When”.

Why should I Mitigate?

- 1) To better protect the life safety of our community residents and firefighters during a wildfire.
- 2) To better protect your property, your neighbor’s property and our community during a wildfire.
- 4) To protect our Perry Park lifestyle beyond a wildfire event.
- 5) To elevate wildfire mitigation efforts to a community scale and increase the effectiveness for all residents.
- 6) To enhance the ability for all of us to obtain reasonably priced home owners insurance.

Grant Program Eligibility Requirements:

Your property should meet one or more of the following criteria:

- Your property is adjacent to a PPMD open space parcel and your wildfire mitigation project will enhance the effectiveness of mitigation that has been accomplished on the open space parcel.
- Your wildfire mitigation project is part of a larger scale effort with one or more neighbors to provide a greater level of effectiveness against a wildfire across contiguous properties.
- Your project is for the removal of dead or dying trees within your defensible space, or that pose a hazard to public safety.
- Your wildfire mitigation project will enhance your defensible space and improve firefighter safety.

Your project must follow the recommendations of the Colorado State Forest Service document “[Protecting Your Home from Wildfire](#)” CSFS Quick Guide Series - FIRE 2012-1. This document can be found on the internet at: http://csfs.colostate.edu/pdfs/FIRE2012_1_DspaceQuickGuide.pdf
